## Your ideas are put into motion here

**yes** (Young Engineers Support) is designed to foster the mechanical design ideas of those with a passion for engineering- whether you are a high school or college student, teacher or professor or robotics team mentor.

## Say YES to FREE PRODUCTS

**yes** offers **FREE** product samples, catalogs, flyers, guest lectures, support for student research projects and much more. You can also profit from the know-how of our specialists; technical questions of all kinds are answered.

## yes opens doors:

### Searching for materials for your lectures and presentations

If you are a trainee, student, teacher, lecturer or educational professional and searching for materials for your lectures, presentations or want to make your seminars and projects more interesting and vivid...

We would be pleased to send you **FREE** product samples and reference materials tailored to your individual needs.

e-mail: [yes@igus.com](mailto:yes@igus.com)

## Plastics for longer life®

**yes** is an initiative of igus®, a researcher, developer and producer of self-lubricating iglide® plastic bearings, igubal® spherical bearings and ball bearings, DryLin® linear guides and Energy Chains® with special cables and connectors.

igus® has grown in recent decades into a global company and has over 2,150 employees in 33 offices, plus distributors in more than 47 other countries.

## FREE SAMPLES

**yes** offers **FREE** samples for any student application. Working with igus® has never been easier. Simply pick up the phone, or send us an e-mail. We are happy to assist you with your design process. Find out more by visiting [www.igus.com/yes](http://www.igus.com/yes)

## Come to us!

Do you have a particular interest in plastics technology, manufacturing, processing and product applications? igus® opens doors:

- Visit the igus® facility
- Presentations by igus® specialists at your site
- Online tools (service life predictions and configurators)
- Display the igus® logo or simply receive free product samples for your project
- Videos, podcasts and instructions:
